Subject: Re: EPA/NTP Work Group -- Spring Meeting

Thanks for offering to at mention the glyphosate work. It has become an "Agency" interest. Also, OPP asked to be included so I told them I would make sure they are invited and can participate. In talking with them it became apparent that they weren't aware of our group.

Thanks!!!!

Fine with me to make a little time to discuss glyphosate but I didnt think there were OPP reps on this group?

Update on many of the study programs I listed will be brief since we dont have any data or reports coming in the near-term. I wanted to mention them to hear from EPA about any new needs or decision timeframes.

Scott

Charles and Scott:

This list of updates is very good. Lots of people are interested as you know since I have been adding people to the invite. (I've got a large mailing group!), Would it be possible to add glyphosate to the list of updates? I am involved with OPP and the ongoing glyphosate issues. They mentioned today that it would be great to get an update during this call. I know you are talking about it on the 15th at the NTP meeting but could you talk about it for EPA folks?

Thanks for your consideration.

Lynn
